Art Unit: 1624

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-20 and 30-38, drawn to method employing phthalazine hydrazones and compositions thereof, classified in class 544, subclass 237; class 514, subclass 248.
- II. Claims 21-29, drawn to phthalazine hydrazones, classified in class 544, subclass 237.

The inventions are distinct, each from the other because: Compounds in II are not coextensive with that embraced by I. Thus art which may be pertinent to group I would not necessarily be relevant to II. Additionally II would be expected to have different uses apart from that embraced by I- namely as antihypertensives for some of the compounds in II as evidenced by US'539 cited by applicants.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
